

## Cool Australia Enviroweek challenge- 2015

### POSITIVE ACTION FOR A SUSTAINABLE FUTURE

This year, the Cool Australia Enviro challenge week is on from the **30<sup>th</sup> August to the 5<sup>th</sup> September**. The Environmental group is participating as a whole school getting involved in a range of environmental actions on the cool Australia website. Our four challenges are:

- **Waste warriors Challenge** by bin it, waste free lunches and recycling to keep school clean
- **Sparky Challenge** by switching off electricity and electronic devices when not needed to save energy
- **Green thumb Challenge** by gardening care and allowing ourselves to get dirty and muddy to make our school greener.
- **Wild Child challenge** by spending more time in nature and exercising outdoors

BGHS teachers and students you are invited join us to celebrate the Enviroweek by:

1. **Switching all the light and power off when not needed**
2. **Pick up your rubbish and any other rubbish found near you and place it in the bins to keep the school areas clean and tidy including corridors and classrooms. Bring less packaging and have waste free lunches.**
3. **Join us to work in the garden and create a garden bed to improve the area around the hall.**
4. **Spend more time in the nature by going bush walking, sitting in the garden and having fun outdoor**

Our group will be walking around the school to take photo of any positive environmental action.

Happy Enviro week 2015
